Dare Radio Control Flyers Public Flying Event To Benefit Food Bank

Wednesday, September 22, 2021

By Staff Reports

The members of Dare County Radio Control Flyers, our local radio control model aviation club, will be hosting a flying event at their field in Manns Harbor on Saturday, September, 25 2021 from 10AM to 4PM. Local residents of all ages are invited to attend, and any person attending will be afforded the opportunity to fly one of the club's radio control aircraft!

There is no fee for attending or flying at this event, however the club is asking all those attendees to bring at least one canned good or non-perishable food item per person. These items will be donated to our local food bank by the club following the event. Those attending wishing to try flying a radio control model airplane will be able to do so utilizing an aircraft provided by the club under the supervision of one of the club's flight instructors. Attendees will also be provided with lunch consisting of grilled hot dogs, chips, and a beverage at no cost.

“This event was conceived as a way of giving back to our community” stated the club's president, Jim Davis, “and it is also a way for those who are curious or interested to try flying a model without any cost.” For those interested, further details on the event as well as a map providing the event's location is available online at: drcf.club/calendar

Dare County Radio Control Flyers was chartered in 1989 by the Academy of Model Aeronautics and serves to promote radio control model aviation as a sport and recreational activity at the home of the Wright Brothers first flight, the Outer Banks of North Carolina. The club is a self-supporting, not-for-profit organization that is always looking for new members to share their passion for radio control model aviation. Membership is open to anyone with an interest, including those with little or no experience in the hobby. Those desiring further information are invited to visit their website at drcf.club, or to contact the club at 252-656-2FLY (2359).
