Change of Business Meetings Location for July: 06/28/24

The club's business meetings for next month will be held on July 18, 2024 in the conference room of the Outer Banks Chamber of Commerce, located in Kill Devil Hills. This change of location was necessary due to the non-availability of our primary meeting location at the library. As usual, our meeting will commence at 7PM, and all members are encouraged to attend as your participation are vital to the growth of our club and the planing of enjoyable activities. In addition, any person interested in learning more about our club and model aviation activities on the Outer Banks are also welcome to attend. Information about the Outer Banks Chamber of Commerce's location, including an interactive map and driving directions, is available at the link below.

Public Flying Event a Great Success: 11/04/23

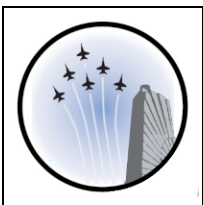

The *Outer Banks Festival of Model Aviation* hosted by Dare County Radio Control Flyers last month proved very successful thanks to the hard work of so many of our members. The club collected non-perishable food items as admission to aid the good works of the Beach Food Pantry, and spent the day introducing more than forty local residents to the world of radio control aircraft. Three lucky participants who performed an assisted flight with a club flight instructor also received a ready-to-fly model aircraft through an exclusive raffle drawing.

According to the Beach Food Pantry, the admission collected at this event provided enough food to feed eight people for two weeks. In addition, the club also added fourteen new pilots to its list of members!

Dare County Radio Control Flyers wishes to thank everyone who supported this event through their participation, and we hope that you will keep in touch with us to learn more about model aviation and watch for future public events.

Club Receives Airplane Donation from Horizon Hobby: 09/01/23

Dare County Radio Control Flyers was recently notified that they will be receiving two planes from Horizon Hobby to be used as prizes at their upcoming *Outer Banks Festival of Model Aviation* event in October.

Club president Jim Davis stated that he was overwhelmed by the generosity of Horizon Hobby for their donation of an Apprentice STS and a Conscendo Evolution in support of the club's event that was developed to introduce local residents to the recreational activity of model aviation.

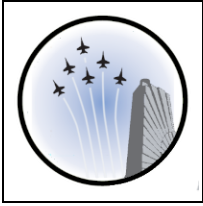

"This will be the third year we have hosted this public event, and we hope to get more local residents and families involved in model aviation" stated Davis, "and with the assistance of great organizations such as Horizon Hobby, this year's event promises to be the best ever!"

Horizon Hobby has been in business since 1985 and has become the leader in radio control products and accessories through their world-class innovative products and their commitment to their customers.

Free Public Flying Event Scheduled for October: 08/15/23

Dare County Radio Control Flyers will be holding a public flying event for local residents on Saturday, October 7, 2023 entitled the *Outer Banks Festival of Model Aviation*.

This will be the third year for this popular event that provides local residents with an opportunity to learn about the hobby of model aviation by actually flying a radio control aircraft under the supervision of one of the club's instructor pilots. In addition to flight operations, all attendees will be provided lunch consisting of hot dogs, hamburgers, chips, and soft drinks.

At the conclusion of the event, the club will hold the raffle and randomly select three tickets to determine a grand prize and two runner-up winners. Tickets to this raffle cannot be purchased and will only be provided to non-club members who have participated in the day's activities by flying with a club flight instructor. The grand prize winner will receive a ready-to-fly airplane along with club and AMA membership. The two runners-up will receive a ready-to-fly airplane and AMA membership paid by the club provided they show the desire to continue in the hobby by applying for club membership. The combined value of all three prizes is over \$1,350!

A second raffle of an electric powered-glider and one-year paid AMA membership will also be held. Tickets for this second raffle will be available for sale at \$10 each, or three tickets for \$20.

In the spirit of giving back to our local community, admission to this event will be at least one non-perishable food item or a tax-deductible cash donation per attendee, all of which will subsequently be donated to the Beach Food Pantry.

Should inclement weather or high winds cause unsafe flying conditions, the event may be rescheduled on short notice, so those interested in attending are encouraged to follow updates provided on our website and Facebook page.

For Sale—Aeroworks 30cc Extra 300 Electric: 06/24/23

Club member Mike Dickstein is looking to sell his electric-powered Aeroworks 30CC Extra 300. The aircraft has never been flown and includes many high quality parts and components. Mike is selling the plane since its 78-inch wingspan is too large to fit in his current vehicle. Local pickup and serious inquiries only. Further information is provided at the link below.

Club Receives Grant for Public Flying Event: 05/13/23

Jim Davis, president of Dare County Radio Control Flyers, announced that the club recently received a \$1,000 "Takeoff And Grow" grant from the Academy of Model Aeronautics (AMA) Foundation. Only twenty-two such grants were awarded nationally, and these funds will be used to host a public event for residents of our community during late-September Davis stated.

The event, entitled the *Outer Banks Festival of Model Aviation*, will afford local residents the opportunity to learn about the hobby of model aviation by actually flying a radio control aircraft under the supervision of one of the club's instructor pilots. In addition to flight operations, other activities will include raffle prizes that will be awarded to non-club members who give flying a try, and lunch consisting of hot dogs, hamburgers, chips, and soft drinks.

Admission to this event will be at least one non-perishable food item or a tax-deductible cash donation per attendee, all of which will subsequently be donated to the Beach Food Pantry.

According to Davis, this will be the third consecutive year for this family-friendly event. "Last year we introduced forty local residents of all ages to radio control model aviation, and we are planning for even more guests this year" Davis added.

Further information about this event will made available in the near future.

Club Earns Gold Leader Club Status Again for 2023: 03/14/23

Dare County Radio Control Flyers was recently notified by the Academy of Model Aeronautics (AMA) that it once again attained the level of a Gold Leader Club according to club president, Jim Davis. This level of recognition was granted following a determination by the AMA that the club had attained all the required elements that demonstrate commitment to safety and the advancement of model aviation within our community on the Outer Banks. Currently, only 8.2-percent of the AMA's 2,500 chartered clubs are Leader Clubs, and only 170 have earned the top-level distinction as Gold Leader Clubs.

Club Announces Contest for Members: 04/08/23

Jim Davis, president of Dare County Radio Control Flyers, announced today a challenging event for its members that will be held on Saturday, June 3, 2023. The event, entitled *Rocket Madness*, will be a contest involving the construction and flying of a FliteTest glider that will be designed to be taken aloft by a rocket-propelled booster. *Rocket Madness* is designed to encourage the creativity and test the engineering skills of its participants, while providing a fun-filled and exciting event for members to enjoy. Additional details for this event, as well as the rules and prizes, are available at the link below.

Club Attains Prestigious Gold Leader Club Status: 11/07/22

Dare County Radio Control Flyers was recently advanced to the level of a Gold Leader Club by the Academy of Model Aeronautics (AMA), according to the club's president, Jim Davis. This recognition was granted following a determination by the AMA that the club, that had been designated a Silver Leader Club earlier this year, had now attained all the necessary elements to be advanced to top-level status. Currently, less than 8-percent of the AMA's 2,500 chartered clubs are Leader Clubs, and this distinction serves to publicly acknowledge the efforts the club and its members have made to advance the sport and recreational activity of aeromodeling throughout the Outer Banks community.

Flying Event Provides Donations for Beach Food Pantry: 10/20/22

Dare County Radio Control Flyers club president, Jim Davis, met Elisabeth Silverthorne, executive director of the Beach Food Pantry to drop off non-perishable food items and cash donations that the club collected at their "Outer Banks Festival of Model Aviation" event on October 15, 2022.

The club wishes to once again thank those who visited with us and donated to this worthy organization that does so much to assist local residents in need.

Elisabeth reported that our donation was enough to provide 350 meals—enough to feed eight people for two weeks!

New Member Promotion Prize Awarded: 05/20/22

We held the raffle to determine the winner of our new member promotion package that included a complete ready-to-fly AeroScout radio controlled airplane at our meeting on May 19, 2022. Unfortunately the winner of our drawing, Philip Garey, was unable to attend our meeting due to working late into the evening. However, the following morning our club's vice president, Robert Yanacek, was able to catch up with Philip at our pilot's breakfast and present him with his prize. Congratulations Philip! We hope you enjoy the plane and wish you many good landings at our field.

Club Awarded 2022 Takeoff and Grow Grant: 05/19/22

Dare County Radio Control Flyers received a \$1,000 "Takeoff and Grow" grant from the Academy of Model Aeronautics (AMA) Foundation recently, according to the club's president, Jim Davis. Seventeen such grants were awarded nationally, and these funds will be used to hold a public event in our community during mid-September, Davis added.

The event entitled the *Outer Banks Festival of Model Aviation* will afford local residents the opportunity to learn about the hobby of radio control model aviation, and to actually fly a radio control aircraft under the supervision of one of the club's instructor pilots. In addition to flight operations, other activities will include handing out, building, and flying balsa glider for the youngsters, raffle prizes that will be awarded to non-club members who give flying a try, and lunch consisting of hot dogs, hamburgers, chips, and soft drink.

Admission to this event will be one non-perishable food item per attendee, and these items will subsequently be donated to a local food bank.

Further information about this event will made available in the near future.

Club Advanced by AMA to Silver Leader Club: 05/12/22

Dare County Radio Control Flyers was recently advanced to the level of a Silver Leader Club by the Academy of Model Aeronautics (AMA), according to its club president, Jim Davis. This recognition was granted following a determination by the AMA that the club had attained 14 of the 15 elements used to evaluate clubs for Leader Club status. Currently, only about 8-percent of the AMA's 2,500 chartered clubs are Leader Clubs, and this distinction serves as a testament to the commitment of its members to safety protocols, community service, and positive contributions to radio control model aviation. The club had previously been designated in 2021 as a Bronze Leader Club, and with this new honor, Dare County Radio Control Flyers continues to advance the sport and recreational activity of radio control model aviation on throughout the Outer Banks community.

Club Awarded 2021 Flying Site Improvement Grant: 12/14/21

Club president Jim Davis announced at our annual Christmas Party that Dare County Radio Control Flyers recently received a Flying Site Improvement Grant in the amount of \$2,763.75 from the Academy of Model Aeronautics Foundation. These funds will be utilized for the construction of a new storage shed on the western perimeter of our flying field and will enable us to store our club's field maintenance equipment. The new storage shed will also incorporate a retractable fabric canopy to the structure to provide a shaded area for those not flying or working on the flight line.

Club members, under Jim's expert supervision as a builder, will begin construction of this new structure in early 2022 and anticipate that the project will be completed by the time flying season begins in early April. In addition to the storage shed, the club's parking area will also be expanded by clearing brush on the western side of the field.

The members of Dare County Radio Control Flyers extend their gratitude to the Academy of Model Aeronautics Foundation for their generosity in assisting us with this much-needed project.

Dare County Radio Control Flyers Named AMA Leader Club: 07/09/21

Dare County Radio Control Flyers has been recognized as a Bronze Leader Club for 2021 by the Academy of Model Aeronautics (AMA). This honor was granted following a review by the AMA of the club's current safety protocols and positive contributions to radio control aviation. We, at Dare County Radio Control Flyers, are proud of this distinction and will continue our efforts to advance the sport and recreational activity of radio control aviation throughout our community on the Outer Banks.
